

The image is a screenshot of the Azure portal interface. At the top, there is a dark blue header bar containing the 'Services' menu, a search bar, and several utility icons (code editor, notifications, help, settings). The user's profile 'Indu Jayachandran' is visible on the right. Below the header, a green notification banner states 'Successfully created bucket "mydotnetapp"' with a 'View details' button. The main content area shows the 'Account snapshot' section, which includes a description of storage lens and a 'View Storage Lens dashboard' button. On the left, a sidebar shows the 'Storage' service selected, with 'Storage accounts' and 'Storage S3' visible. The background of the main area is a light gray grid.
